一篇文章被撤稿背后的故事

周伯通

Retraction Watch 于2021年11月12日刊登了个帖子，标题为 [IEEE retracts plagiarized paper after Retraction Watch inquiries](#). 该帖子大意是说，他们（简称RW）从一个读者那了解到两篇完全相同的文章（当然除了作者名字不一样）

[文1] Yang Chengzhong, Xue Anke, and Lu Renquan, Delay-dependent robust stability of uncertain discrete singular time-delay systems, WCICA, 2006.

[文2] Ji Xiaofu, Su Hongye, and Chu Jian, Delay-dependent robust stability of uncertain discrete singular time-delay systems, ACC, 2006.

发表在不同的会议论文集上，RW就通知了IEEE，然后经过一个月左右调查，IEEE发布了撤稿通知，将杨成忠、薛安克和鲁仁全的文章[文1] 给撤了下来；见[Notice of Retraction](#). 我就是那个好事的读者，有以下邮件为证（见附件）。

首先我声明一下我不认识这位鲁仁全鲁教授，甚至我的研究跟控制论一点都不沾边(no conflict of interest). 我之所以会注意到

鲁教授的这篇文章是源自新语丝上的帖子[广东工业大学杰青、长江学者鲁仁全的学术不端行为（一）——全文剽窃](#)，这个帖子指控鲁教授全文剽窃同门师弟嵇小辅的论文[文2]。帖子作者没有提供证据，自然人们会想为何不说是杨成忠或薛安克剽窃？像这样没有证据的指控是无效的。后来又有若干学者追着这篇问题论文不放，相继匿名发帖，既浪费时间又无体现新的内容。我就顺手写了个邮件给Retraction Watch，于是就有了后面大家都可以看到的文章了。

现在各个高校正如火如荼地开展撤稿论文自查和“回头看”工作。相关文件可参考[教育部司局函件：教育部科学技术与信息化司关于开展撤稿论文自查的通知](#)。核查重点：是否存在抄袭剽窃、重复发表、数据伪造篡改、一图多用；是否伪造通讯作者信息、操纵同行评议；是否存在买卖代写代投、无实质贡献挂名等情况。据说对主动自查自纠并如实报告的，将依规从轻处理；隐瞒不报或虚假报告的，一经查实将严肃处理并公开通报。

不知作为广东工业大学副校长的鲁仁全教授，是否以身作则，就上述撤稿文章向学校主动自查自纠并如实报告？

Subject: two problematic papers

Dear Professor Ivan Oransky,

This is a Chinese reader of your online platform Retraction Watch, we appreciate your team's hard work on Retraction Watch which greatly contributes to the integrity of scientific process. A recent article "Publisher investigating all of an author's papers following reporting by Retraction Watch" is very exciting and it reflects the ever-growing influences of Retraction Watch.

I am writing to bring you attention to the following two problematic papers (papers are attached to the email)

[1] Authors: Xiaofu Ji, Hongye Su, Jian Chu
Title: Delay-dependent robust stability of uncertain discrete singular time-delay systems
Journal: 2006 American Control Conference
Date Added to IEEE Xplore: 24 July 2006
INSPEC Accession Number: 9036507
DOI: 10.1109/ACC.2006.1657318

[2] Authors: Chengzhong Yang, Anke Xue, and Renquan Lu
Title: Delay-dependent robust stability of uncertain discrete singular time-delay systems
Journal: 2006 6th World Congress on Intelligent Control and Automation
INSPEC Accession Number: 9175561
Date Added to IEEE Xplore: 23 October 2006
DOI: 10.1109/WCICA.2006.1712567

The contents of Paper [1] and Paper [2] are exactly the same. How could they be published by two groups of different authors? I wish your team would look into this issue and urge the publisher IEEE to withdraw them if possible.

Best Wishes

[REDACTED] (please don't reveal my email address, thanks)
